

AUDIO VISUAL AND VIDEO SERVICES

With experience in a wide range of image **display** devices including the latest projectors, plasma screens and LED video walls, we will supply you with the correct product for your requirement. Whether it is projecting onto uneven surfaces such as cliffs, curves and buildings or 5" screen for a lectern we can deliver a quality *visual effect*.

Using high-end **audio** systems and the effectiveness of digital sound desks, Catalyst will ensure your audience experiences every audible note. We also provide *ONSITE FILMING* services, with *video editing* capabilities and options for DVD production and live web streaming.
